Monoclonal Antibody Data Sheet

Product: *Nef N-Terminus (HIV-1)*

Catalog #: 10-002001

New Catalog #: 10-002001 **Host:** mouse

Immunogen: purified, full length recombinant nef (HIV-1) produced in E.coli Expression system

Clone #: 2H12

Subclass: IgG₁

Concentration: 100µg / vial **Affinity Constant:** N/A

Cross Reactivity: Binds to recombinant nef (HIV-1)
Not tested for sterility or endotoxin content.

Form: Supplied lyophilized as a purified IgG in PBS buffer, > 95% pure by SDS-PAGE analysis, with no preservatives added, reconstitute in sterile distilled water.

Storage: 4°C while lyophilized, once reconstituted, aliquot and store at -70°C

Additional Remarks: Applications: ELISA and Western Blot
If antibody concentration is 1mg/ml, suggested starting dilutions:
ELISA- 1:1000
Western Blot- 1:1000

FOR INVITRO USE ONLY

CAUTION, not for use in humans or clinical diagnosis: This product is intended for research or manufacturing use only. It is pharmaceutically unrefined, and verification of its suitability for use in humans or as clinical diagnostic reagents and the compliance with all Federal and State laws regulating such applications are the responsibility of the purchaser. There is no expressed or implied warranty. No liability is assumed for fitness of purpose and merchantability, or direct or consequential damages. The user assumes all responsibility for care, custody and control of the material, including its disposal, in accordance with all regulations.
