

Product Information Sheet

Catalog Number: 10-H30F

Name: HIV-1 Transmembrane Protein gp41

Host: mouse

Immunogen: HIV-1 Transmembrane Protein gp41

Clone #: M612433

Subclass: IgG₁

Concentration: 1.0 mg/ml

Affinity Constant: n/a

Cross Reactivity: Reactive with gp41 of a number of HIV-1 isolates. Reactive in IFA of infected cells, immunoprecipitation of specific viral protein and western blot.

Form: Purified IgG supplied in PBS, pH 7.4, with 0.1% NaN₃.

Storage: -20°C

Remarks: n/a

Unit: 100 µg
