

Antigen Data Sheet

Product: *Heart Left Ventricle, Normal , Human Lysate*

Catalog #: RDI-SLH081

New Catalog #: 30R-AH050

Grade: ELISA

Purity: SDS-PAGE tested

Source: Extracted from Normal Human Heart Left Ventricle

Concentration: 150 μ g per vial Lyophilized

Contaminants:

Form: Lyophilized proteins; extracted in a buffer containing 62mM Tris-HCl, and 2% SDS with a cocktail to inhibit proteolytic damage to the proteins. Reconstitute with 30 μ l of DI water to give a 5 μ g/ μ l protein concentration.

Biohazard:

Storage: 4 $^{\circ}$ C for shipping purposes ONLY; upon arrival, store at -20 $^{\circ}$ C while lyophilized, after reconstitution aliquot and store at -70 $^{\circ}$ C. Avoid frequent freeze thaw cycles.

Additional Remarks: Ready to use for SDS-PAGE and Western Blotting purposes

FOR INVITRO USE ONLY

CAUTION, not for use in humans or clinical diagnosis: This product is intended for research or manufacturing use only. It is pharmaceutically unrefined, and verification of its suitability for use in humans or as clinical diagnostic reagents and the compliance with all Federal and State laws regulating such applications are the responsibility of the purchaser. There is no expressed or implied warranty. No liability is assumed for fitness of purpose and merchantability, or direct or consequential damages. The user assumes all responsibility for care, custody and control of the material, including its disposal, in accordance with all regulations.
